

## 2017 Cudahy New Business Update

Upon reviewing some statistics provided to me by our Inspection Department and the cities and market places ongoing efforts to retain and obtain new businesses of all kinds in the City of Cudahy, I would like to share the following information with our residents. 2017 was a good year for our concentrated and collaborative efforts to work with the market place to attract businesses. While not all of these are businesses utilized by the public, it does provide us with a snap shot of our continued efforts and results of a successful year.

Some of these businesses listed are still in the process of finalizing things and will be opening soon. We did see a wide range of new businesses from retail, taverns, auto body, barber shops, transportation, warehousing and other service industries. This list does not contain other construction projects in the works such as the expansion of the Angelic Bakehouse, and a new 153,000 square foot building in the Mitchell Business Park.

2017 list includes:

Hammerdown, Lacascada, Lady Adrienne's Barber Shop and Salon, Milwaukee Transit & Achieves Museum, Parker's Place Barber Shop and Salon, Pat's Tavern, Resourceful Rejuvenator, Sottile's Pub, Sports Physical Therapists, Theminiclassy, Trader Nick's South Shore Inn, T-Mobile, Whitnall Auto Body, ARCA Appliance Recycling, Home Delivery Link, HI Tech Petro, JL Moving, Rosen Nissan Warehouse, Terrance's LLC, U S Pack Logistics.

As always, I ask all Cudahy residents to please support all of our local businesses.

John R. Hohenfeldt

Mayor
